Flying Knut + Real Hard Scissors 4 - Bundle

Artikel info:-

Lukas enters the fightroom wearing a real cool sweat suit. He tries to impress Knut in muscle shirt, expensive glasses and a Breitling watch. The fight starts in jump suits but after a few minutes Lukas rips Knuts shirt. Followed by a long schoolboypin and muscle riding. Knut is able to free himself but is put into leag scissors immediately. It's a back and forth and both undress to their underwear. Lukas spins Knut above his head and throws him to the ground brutally. He tortures him with long schoolbopins, muscleriding and slaps. And while showing his muscles he lets Knut sniff and feel his manhood. Finally Knut can free himself out of long torturing leg scissors and for a short time Knut has upper hand. But Lukas uses his feared shaking scissors which wear out everyone after some time. Also Knut has to surrender to aching nipple twistes, mean wedgies and schoolboypins. Lukas enjoys his victory over Knut showing his muscles and planting his foot provocatively on Knut body. The winner is Lukas!

Play length approx - 47 min.

After warming up on the wall bars Jasper calls in Lukas and next to a short handshake the clinch is about to begin. Both do well in using scissors and so it's not surprisingly that both try to checkmate the opponent using them. But also schoolboypins and headlocks are used. Both fighters are agile and tricky. Jasper impresses with fast attacks that surprise Lukas. So it's not as easy as expected for him and he often has to free himself out of hard headlocks and scissors. The little bodybuilder is really astonished about the wiry Jasper. When both are knotted on the ground they use unfair tricks to make the opponent surrender. Over all it's a hard and tough fight without any show elements. Play length approx - 50 min.
