Real Hard Scissors 11

Artikel info:-

Scissors are Momo's speciality. Once trapped in his strong thighs, there is no escape. And that is what happens to Jermaine who is too bigmouthed when they meet for the first time. He calls Momo an old geezer who has no chance against him. But he does not no Momo for real.

Already in round one you can see that it will get an extremely hard fight. Jermaine who is a tough strong minded fighter attacks fast and aggressively. But he ends in Momo's leg scissors again and again.

He is desperate, crying out of pain and sees is last chance in grabbing Momo's balls and hitting him with boxing strokes to get free. He has success and is able to get some air. But not for along time. Very quickly he is back in the clutches of Momo who strings him along, squeezes the air out of him and gives him some mean wedgies.

Momo can proof that you could absolve a good, agile and persistent submission fight even in advanced age (28). He can compensate the rapidity and flexibility of Jermaine through power and experience.

A nice and succsfull comeback for Momo and and experience for Jermaine not to be too bigmouthed.
