International Boys Battle 5

Artikel info:-

Euphoric about his first victory at Fightplace, Lenny wants to have another fight right after the one with Maxim. Maxim has his friend Vlad with him, who by the way has already watched his friend's fight live as a spectator. Clearly, Vlad did not like the fact that his friend Maxim lost the fight. Now he has the chance to get even with the Frenchman. And he uses it! The boys appear in Speedos and from the beginning you can see that the fight is more aggressive. Lenny now has to fight not only against a bigger, but also a heavier opponent, who is also quite angry with him, because he has beaten his friend. No wonder they're fighting harder now. But even in this match, Lenny is holding his own against his opponent. Vlad has to try harder or come up with something to use against the small bundle of energy. So he gradually makes use of bad tricks, grabs Lenny by the hair, pulls wedgies and grabs his balls through his pants. Even if he shows off his body from time to time during the fight and flexes his muscles to impress and intimidate his opponent, this can't hide the fact that he has gained a tremendous respect for the little Frenchman. Lenny also shows himself unimpressed at first. He continues to fight with his energetic style and counterattacks the strong Russian. He even goes beyond that and strips his pants. Until shortly before the end we see a super balanced fight with many strong moves and grabs. And only at the very end a winner can be found in this very sweaty fight. Can Vlad avenge his friend Maxim and win this fight in the end? Or will the agile Frenchman Lenny even achieve a double victory on this evening?
