Perfect Punisher

Artikel info:-

Adam has his first fight at Fightplace and at his debut he meets our currently strongest fighter: Mika. Adam already suspects that it could be a disaster and takes the precaution of wearing a mask so that he doesn't embarrass himself in front of his friends. And that's exactly what would have happened, because Mika puts the newcomer through the wringer. It's easy for Mika, because Adam is just 170 cm tall and weighs 60 kg. Adam has to endure a lot during the 45 minutes. Mika strips him completely and then gives him some hard ball grabs. Adam's butt also has to take a lot of blows. But surprisingly, Adam can take a lot. Maybe he will manage a victory against a smaller, lighter opponent soon. Here, at any rate, he is punished quite severely for having dared to challenge Mika.
