Outdoor Wrestling Fantasies 4

Artikel info:-

A beautiful, warm and sunny spring day. Chase, Tibet and Chico are enjoying the sunshine, relaxing by a lake. When putting on their sunscreen Chase and Chico admire Tibet's impressive stomach muscles steeled body. He tells his friends that soon he wants to fight with Vladimir to win from him the title King of Fightplace. They doubt that he will be able to achieve that and so suggest using the nice afternoon for some training. The wiry Chase goes first and fights against Tibet. This is Chase's first fight for Fightplace and he has to start with a much heavier opponent. However he does very well and battles fiercely as if his life depended on it! Even so, Tibet manages again and again to get Chase into leg scissors, and whoever struggles in one of those holds has already lost because there is no escape from Tibet's strong soccer-trained legs. Between Chase and Chico the fight is a little more balanced because both are about the same height and weight. Moreover Chico is also a soccer player and knows how to use his leg scissors purposefully. A tough afternoon for the slim Chase, however he gives an excellent fight, keeping up his attacks not giving in. 60 minutes of submission matches in scant briefs and with beautiful close-ups. A must for fans of washboard abs!
