Kick-Ass Wrestling

Artikel info:-

Jasper is upset about the arrogant behaviour of the fightplace youngsters. He says as soon as they have won some fights, they believe they could win against anyone from the team. Marius, one of the youngsters thinks different about that. For him it doesn't matter if you are new or taking part for quite some time. He believes in winning against the old-school-fighter with the right technique and enough power. In Kick-Ass Wrestling they face each other and from the beginning on the air is burning. Without talking and without mercy they charge at each other. Without getting rid of their t-shirt they are tugging each other on the mat with tremendous power. This fight is real, no arrangements, the audience feels that. Headscissors, shaking bodyscissors, headlocks as well as schoolboypins and smothering pins are the techniques they use against the opponent. And if that doesn't work they get back to the old tricks like ballgraps and wedgies. After nearly one hour both guys are totally worn out. But if you expect fast surrenders you are wrong – hard action until the end! This film is also available as HD download.
