Combative Boys

Artikel info:-

While chilling in their community Basti, Tibet and Tom don't guess where this evening will lead to. They discuss about their girlfriends and if you should bring girls to fightplace. Tibet is on the edge about that discussion, he wants a fight for himself. Basti and Tom are not sure if they should fight Tibet because he has more weight and good fighting skills as he had shown recently. Tom is well trained but compared to Tibet inexperienced in fighting. So Tibet lures them with money the winner of this small tournament will get and throws 50 bucks into the pot. He requests the two to join in. The money attracts and both add 50 bucks. The winner will leave with 150 Euros. The first fight is between Tibet and Basti. A hard battle for both because Basti can score with his experience but has to suffer under Tibets weight and power. Both have to press every button and especially Basti has to sustain a lot. Same has Tom who joins for the next round against Tibet. He ends up as Tibet's puppy and has nothing to set against the strong soccer player. Maltreated and completely exhausted he needs a break. Basti uses this pause to challenge Tibet once again. More frantic as before they fight using painful wedgies and ballgraps. The winner of the evening is Tibet with no lost fights. He donates 20 Euros of his earnings for the winner of the fight between Basti and Tom. The fight between them is more balanced with long and hard holds. Tom, who is new at fightplace, cuts a fine figure but has to surrender against Basti in the end. With "Combative Boys" we continue our "real submission fights" series in which the fights are real and hard. No pussy or show fights as seen at most of our competitors who try to copy us.
