Artikel info:-

Yan meets sweet Gabriel. While playing a fight-game on their Xbox they make each other furious and start attacking one another already while playing. After a short tussle on the sofa they decide to have a real fight on the mats. What follows is nothing to sneeze at. Gabriel, who just turned 18, wants to bounce back against his slightly older buddy. The small but well trained jock gives it all and has a bag of surprising tricks. The bigger and heavier Yan has problems to stand against him. He uses his weight and pins the smaller one several times. On the ground it's hard for the cutie to free himself and has to suffer a lot. But Gabriel learns fast and takes revenge with schoolboypins. When they use bully pins (cock to face) the fight gets hotter. Yan goes for Gabriels clothes and puts his slip on the hardest pull test. Gabriel is not upset but turned on and keeps on fighting naked. Yan gets wilder, too and lets Gabriel feel his feet or uses his weight for facesitting attacks. Like at every match there's a winner and a loser. The winner is looking forward for some minutes of abandon after a sweaty match. But in the end they are buddies and also the loser doesn't come off badly :-)
