Balls Out

Artikel info:-

Crash boom bang – „Balls out“ is for sure one of the hardest fightplace movies in 2012. It can not really become more brutal. When Jason tries on his new shirt for going out in the evening it comes to blows with Wladi. You might think Jason is too flimsy for beefy Wladi but you are wrong. He really takes not any shit from Wladi. And he has success. He is able to hold Wladi tight on the ground several times. We were surprised how much power and energy comes out of this small-boned boy. A class A rip and strip fight. They drag on their jeans and shirts until they only fight in undies which means thongs. They are neither bothered about destroying a wall nor on their balls hanging out. The main point is fighting. Afterwards we were happy that nothing worse has happened. We could fix the wall and both weren´t injured seriously. Who is into real, sweat-inducing fights should definitely get “Balls out” now!
