Dont cry Bitch

Artikel info:-

This is the sequel of "Victims" which was been already nothing for bad nerves. "Don't cry bitch" tops everything we have seen before and shows what is be possible at fightplace. Toni seems to be masochistic standing up against Wladi again. Instead of giving in and running away he dresses in his "Fighter" shirt again to provoke Wladi. Wladi has enough now and shoos the already maltreated Toni into the fightroom. Now it gets borderline and so stark that it feared the cameraman. Wladi leaves nothing out to punish Toni for his big mouth. Toni gets bound upside down naked on the wall bars. Now he is helpless and that makes him crazy. Wladi hangs him until he get's no breath. And he seems to like it because he fights with a half hardon. He allows full bent for his arousal and runs a riot on Tobi. After 50 minutes the ordeal is over and Toni lies knocked out on the floor. There is no sex in this film. But we rated it XXX because it's too perverse for the regular shop.
