RAW + RUTHLESS

Artikel info:-

When it´s about cbt, crotch abuse or similar games, Wladi is his element. And it seems as if he outdoes himself again and again. He loves to test the limits of his opponent. How far can he go, how much is the opponent able to take. And you have to be able to endure a lot of pain, otherwise you are finished quite quickly. It started quite harmless that evening. Wladi is in the attic with his prentice to work on the chimney. But the prentice jars on his nerves and so it ends in a disaster. Dario doesn´t know Wladi very well and never saw him fighting. And so he is very bigmouthed against Wladi - and that comes back to roost. Wladi takes revenge in his very own way. Trampling, feet licking and gutpunching are only the harmless versions of the game. After he stripped Dario completely he takes him to the limits of his pain threshold.
