Knut was allowed to take a break. Momo brought him a bottle of water because he should not collapse in case of this hard match. Fettered he sat on the ground, swallowing the water, which Momo threw him into his mouth. Perhaps you could think that Momo finished Knut in the first part, but this is totally wrong. He bundled his hands and his feet that Knut was something like a package. For sure Momo used this advantage to torture Knut. Schoolboypins with bitchslaps, Bullypins with cock to face actions and Momo's favourite attack: the "CBT". After Momo released Knut from his fetters, Knut tried to attack him. Angry, because of the past attacks, he tried to grasp Momo for revenge. But his enemy is just too strong and his upper legs, which are made of steel because of the soccer training, always clutch his body. Hereafter Knut was able to show his skill. But if Momo got started with his painful grasp between Knut's legs, the chances of Knut recede. With a mix of Bullypins, Nipple Torture, Trampling and riding his muscles he tried to knock him out.
