Backyard Brawls 2

Artikel info:-

Toni is at his best. We have never seen him like this. You can see that he trained hard in the last weeks, so don't wonder why he is always showing his body to anyone, anytime. He did that while he was working in an industrial area. Igor (a new one) and Toni had to assort some tires. Both of them sweat a lot. Now even the bodys are heaten up in the sun, their mood, too. Toni presented himself as the big boss, bur Igor, a muscular guy, is not that type of person, who is accepting something like the behaviour of Toni. Their was a tramploine, which got their ring. It could be the fight, which makes them that hot, but in this case it's the sun. After i few rounds it just got too hot, they they undressed their clothes and continued with their speedos. Fighting was harder then Igor ever expected. He has not that much stamina. His trciks are not that bad, but he got no chance against Toni. When he was out of power Toni was able to dominate the fight. A little group of Romanians noticed that contention because of the noise. Avery was part of that group. At the beginning they were just watching, but then they wanted to sent Avery out, to fight against Toni. Now it turned into an intense fight between Toni and Avery. It was very exciting from the start until the end. Now Toni had to show all of his skill to contest Avery. Toni wanted the victory at any cost. So he used many ballgrabs to scare and humiliate Avery. The Romanians cheered their little boy for revenge. Avery noticed very fast that he had to revange in the same way to dominate this fight. He did that very well. It got pushed, pulled and squeezed and that just hurted when you were just watching. The quality of this fight is just amazing. We never had a fight like this at Fightplace and our Fans will notice that!
