Pervert Punishment 2

Artikel info:-

Again it's Knut. This time he gets into trouble with Hardy. Hardy, a similar caliber as Moe, had his fun with Knut before. In "He is a bitch" and "Master and Slave"; we saw what Hardy does to make his opponents submissive. This hot afternoon it won't be that easy. Since Knut wants to get rid of his loser image his rivals had to expect much more fightback. And so in that fight as well. Knut trains in front of the garages as Hardy comes by. They check the scope of their biceps and thighs. Knut has more and is proud of that result. Hardy has humiliated him some times in the past but today he has no fear anymore. That bothers Hardy since he likes to be the one in charge and demands respect. Their last fight was some time ago and so they want to check and see who is the stronger one now. From the beginning on Hardy shows in which direction it will go. He puts Knut into a headscissor, grabs his balls and shows him the way. He uses things lying around to punish Knut. An old antenna for example is used as a whip or and mallet as a striking tool. You will not only see brutal punishments but also great wrestling action. Hardy knows a lot of tricks and moves and has a lot of power. Especially in his legs. And since Knut accepts not everything anymore you see a lot of exciting scenes with mean tricks. They tie on their hair as well as on their trousers, even on their balls. Hardy squeezes Knut with his feet. Than closes his mouth and nose with his hands so that Knut has to surrender. Especially in the second part Hardy presents himself steel hard and uses Knut as his toy boy. Knut counters with ballgraps and shreds Hardy's trousers. But he cannot really fight back. He has to suffer the torture which is more an abuse. When Hardy realizes he has upper hand Knut is forced to do sit-ups and pushups. If he does a mistake he gets strokes with a ruler. At one point Knut can fight back for some time and shred Hardy's shorts. But you don't have to wait long for Hardy's revenge. He strips Knut completely and lets him do the exercises naked. Knut has only one option: run.
