International Boys Battle 4

Artikel info:-

Lenny (22) has applied to us as a fighter and will compete in his first fight against Maxim.

The Frenchman Lenny, who is already experienced in fighting, does not make it easy for himself to have an extremely well-trained Russian boy as his opponent in his debut fight. Moreover, Maxim is bigger than Lenny. But this does not always have an influence on victory or defeat of a fight.

In hot bodysuits / singlets the two come on the mat and sniff each other only very briefly. Quickly they push each other and try to bring the opponent to the ground. Arrived in the ground fight, Lenny has better cards on short since he is on top. He tries to place himself on Maxim with a schoolboy pin. But he does not succeed. Maxim does everything he can to avoid being down.

The fight goes on for a while without a final outcome until Lenny recalls the tricks he has learned. He is quite good with the headscissor and so he can fix Maxim's head between his thighs. But the wiry Russian twists and turns until he can free himself. When Maxim notices that he has a hard fight with Lenny in which he can't really win, he gets mean and grabs Lenny's balls who is rather unimpressed by this. The first round goes to Lenny. Although it was relatively balanced in the first minutes, but with a slight plus for Lenny.

After a short break they start again. As so often, after some time the inhibitions are overcome and it is fought harder and also meaner. Now Lenny also begins with CBT attacks and he also gets into his opponent's pants. But for Maxim it looks a bit better now. His tricks work and he can trump with schoolboy pins from time to time.

The sweaty middle part of this fight probably causes the boys to free themselves from their singlets before the start of the third and last round. Lenny is wearing tight panties underneath, Maxim is now naked.

Also in the third and last round it does not go more gently to the point. We see a well-balanced fight in which both can score more or less well with their tricks. But in the end Lenny comes out of this fight with a narrow victory. He proudly poses in front of Maxim and leaves the mat.
