Sex is a battle, love is war!

Artikel info:-

Even in a love relationship, not not all that glitters is gold. Sometimes sparks fly and small differences of opinion quickly turn into a fight. Sometimes in bed, but with us on the mats. Not for life or death. Nevertheless, the desire for power and domination play an important role in many relationships. Nate and Ollie are no exception. It's really just a little thing. The boys want to go to the disco, but Nate has forgotten to iron Ollie's shirt, which he wants to wear this evening. Nate acts very self-confident, almost arrogant, and gets Ollie upset. When Nate digs out a fitness magazine and confronts Ollie with the well-trained bodies on the cover, that is the last straw.

Ollie wants to prove to Nate that even with his dainty body he has strength and can defeat him. On the other hand, his goal is to use a fight and victory to drive out his friend's arrogance.

During the fight it seems as if the boys let out all the frustrations that have accumulated over the last months. They use all available body parts and try to get their partner under them with all possible means and tricks. The fight develops into a mixture of aggression and horniness and ends with submission by the weaker one. The loser must grant the winner his wish and bring him to climax.
