Skinny Russians

Artikel info:-

It comes to a revenge match between James and Christoph. James sneaks into the studio and watches Christoph doing some fitness exercises. Actually Christoph is a dancer and therefore trains hard for his next performance. When he notices James, he lets go of his exercises and immediately asks his Russian buddy for a revenge fight. And this time Christoph lets a little beast out. With a few newly learned tricks he throws James to the ground again and again. He is quite surprised that Christoph seems to be much stronger this time. The 18-year-old James did not expect this power. Christoph really gets the little one down and shows him clearly that this time it's him who takes over the dominant role. He proudly presents his superiority by putting his feet on his opponent's chest and back. But Christoph also scores with hot bullypins, ball grabs and well done body scissors. He has learned to do so and in some places he is not recognizable.

Play length approx 67 min.
