Old flame never dies

Artikel info:-

We open the year 2021 with a comeback of a special kind. Slavek, one of the first fighters of the Seesen team is back on the wrestling mat. After more than 10 years break still as crazy as back then. As an opponent he had wished for Hector. We could fulfill his wish and ordered him to the training rooms of the team, when Hector was doing his weekly bodybuilding training. Hector was quite surprised by the unannounced visit of the "new unknown" for him. Actually, he wanted to go through his training in peace and alone. For Slavek it was a good opportunity to annoy the youngster and increase the weight on the barbell. Slavek did not leave Hector alone during the training. He annoyed and provoked him until the first test of strength in arm wrestling took place. After that, the circumference of their biceps was measured. But both wouldn't be at Fightplace if the final decision wasn't decided in a wrestling match. Hector hasn't been with the team too long - Slavek is an old hand with a lot of experience. Hector is quite good in training - Slavek has been out for a long time and first has to build up again. Who used his advantages now that it was enough for a victory? The fighter with the nastier tricks was clearly Slavek. What he didn't bring in strength and stamina, he tried to make up for with dirty tricks. But Hector also gradually thawed out and retaliated accordingly. So we got to see a fierce and at the same time hot fight with many nice moves and holds (Slavek's specialty is still the schoolboy pin). Old school fighter or newcomer, who made the race here?

Play length approx 36 min.
