Artikel info:-

Chubby vs Skinny could be the title of this movie. This time Hector takes on a real heavyweight of over 90 kg. George has heard about a fight club near him and wants to know more about it. When he arrives at the club, he meets Hector, who is at training and is not at all pleased about the visit. But Hector lets the newcomer in and shows him around the club. At the same time, he makes quite fun of the fact that "the fat guy" wants to fight at all. But George (18) doesn't take no for an answer and wants to show the skinny guy with the big mouth right away. Hector proudly shows George his trained arms and boasts about his well-built body. George can't score with that, but he claims to be able to get everything out of his mass and thus defeat the skinny guy in a wrestling match. The two give it a shot. George quickly proves that he wasn't exaggerating with his prophecies. He grabs Hector already in the first seconds and both go down hard. The toughness continues throughout this fight. For Hector certainly one of the most exhausting fights in his time at Fightplace. But he shows fighting spirit and doesn't give up, even if 90 kg of weight are sitting on him. And that happens quite often. George loves to sit on the thin opponent's stomach, chest or neck. He lets Hector feel all his mass. Hector counters with good Leg Scissors, because by now he has learned to use his legs wisely. And he also uses the Schoolboy Pin more often, mixed with Bully Pin, where he lets George sniff his whole manhood :-). George surprises with his agility, which you wouldn't have expected from his weight. In addition, and already in his first fight, he is quite uninhibited when it comes to performing not quite legal tricks. Overall, a good and interesting fight, which shows that even larger weight differences are quite feasible, if both fighters know how to use their advantages.
