Twink Tournament 1

Artikel info:-

More and more interested fighters arrive at our Berlin studio. Among the newcomers is Nic, who made a very good, combative impression right from his casting. As Finn was present at the time, we had the opportunity to send two Berlin boys onto the mat. And the choice was the right one! Two enormously agile fighters, showing a fight which almost borders on MMA style. The attacks are fast, the holds firm and without mercy. In our new series Twink Tournaments we want to check who of the team is the king at the end of the series, who has the most victories. on the mat. And the choice was the right one! Two enormously agile fighters, showing a fight which almost borders on MMA style. The attacks are fast, the holds firm and without mercy. In our new series Twink Tournaments we want to check who of the team is the king at the end of the series. i.e. who has the most victories. We start with Finn vs. Nic and they set the bar very high in their debut fight of this series. Both boys are extremely tough wrestlers who will stop at nothing, even if it gets a little bloody here and there. Here they really fight, no show, no mercy towards their opponent. But the two of them don't just cut a very good figure in terms of fighting. In their tight Speedos they also look pretty sexy :) Have fun!
