My Little Bitch

Artikel info:-

Boy Toys seem to be very popular with some fighters. Sometimes, however, a so-called "boy toy" develops only during the fight. Often when the dominant part has "taken a liking" to his inferior opponent. In this match it was Moe who noticed very quickly that his opponent Nicky went into the fight full of passion. Passion for fighting but also for him. Moe, also full of energy and with curiosity about this new opponent, also showed some sympathy for his rival. And since Moe was the more experienced part in this fight, therefore mostly superior to the inexperienced Nicky, he made the little newcomer his Little Bitch. A hot match that I'm sure many of our fans, and especially Moe's, have been waiting a long time for.
