Unbreakable III

Artikel info:-

After Mika has pretty much finished off his opponent Moe and left him tied up in the bathroom, he turns to his next opponent.

In the meantime, Dante has arrived at the studio.

Dante actually wanted to meet Moe, but he is still tied up in the bathroom.

Dante doesn't know Mika yet, so he doesn't know how strong this boy is.

Mika's soft, friendly way of dealing with other people belies his fighting skills and especially his aggressive fighting style. So it is not surprising that Dante wants to take on Mika. But it is only Dante's second fight at Fightplace. On the one hand he lacks experience, but also the necessary power to stand a chance against Mika.

After the first few minutes of this fight it is pretty clear that Dante is going to lose.

Mika takes the boy to his chest and really wrestles him down.

Compared to his first fight, Dante has improved brave and shows good tricks and strength at times, but there is no match for Mika so far.

After about 26 minutes it was over and Dante was finished.

Play length approx 26 min.
